Hi Sir Allan,

May I follow up the settlement of the pending billing as mentioned below please.

QUOTE

Good day

May I follow up your approval on the DESTINATION CHARGES amounting **USD13,005.43** which incurred due to the request of SP to held this shipment at a free trade zone warehouse for several months.

This charges was accepted by SP US as below screenshot.

And appreciate also your formal approval for duty and entry amounting USD5,061.31. Please see attached supporting docs for your reference.

All business handled is subject to Agility's General Trading Conditions, a copy can be made available upon request.

Important Notes:

Sea Import - For any incoming shipment to the Philippines, kindly send the full set of pre-alert such as Master and House Bill of Lading, Invoice and Packing list 1 day after vessel's departure. This is in line with new customs manifest systems (E2M) that we need to submit via electronic manifest to Bureau of Customs 24 hours prior to vessel's arrival. Penalty of USD 750.00 due to delay of receipt of pre-alert documents shall be charged to the origin office.

<u>Air Import</u> - Effective June 16, the Bureau of Customs will now implement the Electronic Manifest Systems (EMS) under the Electronic-to-Mobile (e2m) Customs system in all ports. In this regard, all origins must provide the Inward Foreign Manifest (IFM) and Consolidation Cargo Manifest (CCM) immediately to each destination office. Failure to submit the required information on time at least 1hour before aircraft arrival as prescribed by the Customs this will be subject for penalties and fines thus this will be charge to the origin office automatically.

<u>DDU/DDP</u> - PRIOR arranging the cargo to MNL please always consult us first to check if the consignee is a registered importer and if they comply with the Bureau of Customs requirements. This is to ensure that your any incoming shipments will be handle accordingly. Failure to check with us will lead to huge storage charges, penalties and delays in customs clearance which might also subject to cargo abandonment in the absence of the necessary documents.

Agility Indonesia will apply VAT on overseas billings under the following conditions effective 14 Dec 2015:

- All charges in a job which contains freight (Air, Ocean and/or Rail) will be subjected to 1% VAT, except for reimbursable items which will be exempted from VAT.
- All charges in a job which does not contain freight (Air, Ocean and/or Rail) will be subjected to 10% VAT, except for reimbursable items which will be exempted from VAT.

Therefore, if shipment is under EXW terms then VAT will apply for 10% on origin fee (excluded reimbursable) unless VAT will be pass on to consigned as this covers VAT from origin. For Collect terms, we will be charged 1% for the freight.

Take a green step today. Think before you print.
